Subject: RE: Hugh Kaufman

Dear Ms. Baum,

I am responding to your August 10, 2014 email message. I appreciate your alerting us to these issues. While Mr Kaufman is an EPA employee of record, he has no official EPA role nor any substantive role on EPA's behalf whatsoever in the Malibu High School issue. He does not speak for the Agency nor is he authorized to represent the Agency's position in this matter.

To the extent that he continues to express his personal opinion, he does so solely as a private citizen and not as an EPA employee or spokesperson.

Thank you again for your email message.

Barry Breen
